YFS Troy Global Equity Fund (the "Fund")

Share Class: Net Income 'A' Shares (the "Class")

ISIN Code: GB00B52CBS38 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to seek to achieve long term (at least 5 years) capital growth with some potential for income.

Investment Policy

To achieve the investment objective, the Fund's investment policy is to invest principally (at least 80%) in a portfolio of global equities, and may also invest in other transferable securities, bonds (both corporate and government debt securities), collective investment schemes ("CIS"), warrants, money market instruments, cash, near cash and deposits. The Fund may borrow and may enter into underwriting arrangements. It is the ACD's intention that derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging, as defined by the Regulations. The Fund is actively managed and has, with the exception of the above noted minimum, no limit to which it can be invested in each sector or asset type, nor is there any particular geographic focus.

The Portfolio Manager has full flexibility to adjust the proportion of the property of the Fund depending on their view of market conditions and the assets which it believes are most likely to achieve the Fund's investment objective. From time to time the liquidity of the Fund may be increased substantially if judged to be in the interests of investors. The Fund may invest in CIS which have different investment strategies or restrictions than the Fund, including the ability to invest in derivatives for investment purposes and to gain exposure to assets which are not expressly listed above. Investment in CIS will usually be limited to those which invest primarily in the assets listed above and without exception, CIS will only be held in so far as the rules permit the Fund to gain exposure to the assets held by those CIS.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Income of the Class will be paid out as a dividend on a biannual basis.

Risk and reward profile

Lower Risk ⟷ Higher Risk

Potentially lower reward — Potentially higher reward

1	2	3	4	**5**	6	7

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Charges to Capital Account: Charges to Capital Account: Currently, two thirds of the Investment Manager's periodic fee is charged to capital. This treatment of charges may increase the amount of income available for distribution, but may constrain capital growth.

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.85%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 December 2025 and this figure may vary.

It excludes:

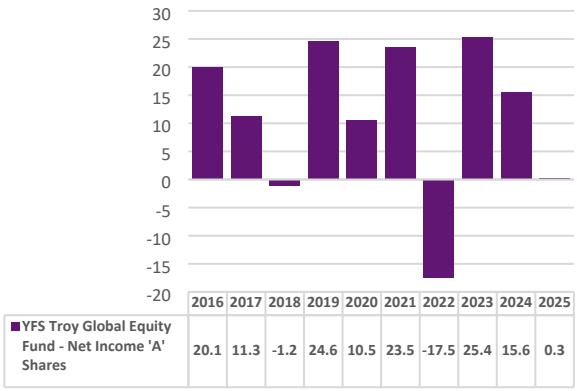

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the "Charges" section in the Fund's Prospectus which is available from the ACD.
