

# Non-UCITS Retail Scheme Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

## Long Term Growth Fund (the "Fund")

(Sub-Fund of MFH Investment Funds ICVC)

Share Class: Net Income Shares (the "Class")

ISIN Code: GB00BDRK7464 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

### Objectives and investment policy

#### Objective

The investment objective of the Fund is to provide capital growth over the long term (at least 5 years); there is no income objective.

#### Investment Policy

The investment policy by which the Long Term Growth Fund seeks to achieve its objective is to invest in a diversified global portfolio utilising a combination of medium term strategic and shorter term active tactical asset allocation in light of market and economic conditions. In doing so the fund may invest in collective investment schemes ("CIS") (both regulated and unregulated structures which may invest in equities, equitylike assets, bonds or alternative investments), bonds (both corporate and government debt securities) and other transferable securities including equities. Money market instruments, cash, near cash and deposits may be held from time to time, without limit, if in the opinion of the portfolio manager, equity or equitylike investment is judged to carry undue risk. It is the ACD's intention that derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging. The Fund may also borrow and may enter into underwriting arrangements as permitted in the Regulations.

The Fund is actively managed and has no limit to which it can be invested in each asset type and no emphasis will be placed on any particular geographic, economic or industrial sector. The Portfolio Manager has full flexibility to adjust the proportion of the property of the Fund depending on their view of market conditions and the assets which it believes are most likely to achieve the Fund's investment objective. From time to time the liquidity of the Fund may be increased substantially if judged to be in the interests of Shareholders. The Fund may invest in CIS which have different investment strategies or restrictions than the Fund, including the ability to invest in derivatives for investment purposes and to gain exposure to assets which are not expressly listed above. Investment in CIS will usually be limited to those which invest primarily in the assets listed above and without exception, CIS will only be held in so far as the rules permit the Fund to gain exposure to the assets held by those CIS.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from [www.yealand.com/policies](http://www.yealand.com/policies).

#### Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

#### Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

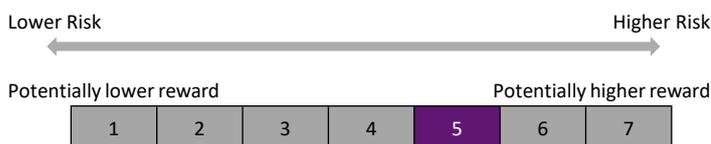

#### Dealing

Shares in the Fund may be bought or sold before 10am on any business Tuesday.

#### Income

Income of the Class will be paid out as a dividend on a biannual basis.

### Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

**Counterparty Risk:** The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

**Currency Risk:** Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

**Default Risk:** The issuers of certain bonds could become unable to make payments on their bonds.

**Liquidity Risk:** During difficult market conditions, some securities may become hard to value or sell at a desired price.

**Management Risk:** Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

## Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.83%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 30 September 2025 and this figure may vary.

It excludes:

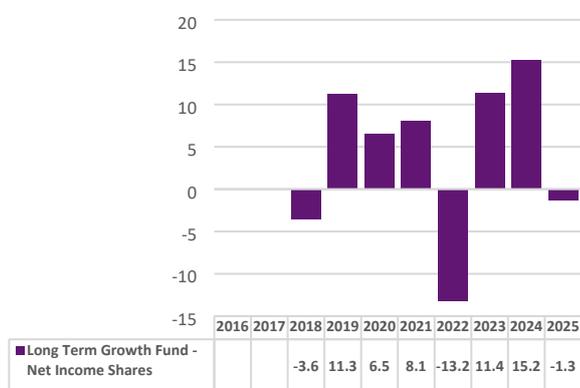

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

## Past performance

Total Return %

Long Term Growth Fund was launched on 04 April 2017, and the Class launched on 04 April 2017.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
