

Non-UCITS Retail Scheme Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

YFS Intelligent Wealth Fund (the "Fund")

(Sub-Fund of YFS Intelligent Wealth Investment Funds ICVC)

Share Class: Net Income 'I' Shares (the "Class")

ISIN Code: GB00BFZ0WV41 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to achieve capital growth.

Investment Policy

The Fund will predominantly (at least 80%) invest in a diversified portfolio of equities, held either directly or indirectly through exchange traded funds and collective investment schemes ("CIS") investing in those sectors described below. The Fund may also invest in bonds (both corporate and government debt securities), money market instruments, cash and near cash, warrants and other transferable securities. It is the ACD's intention that derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging. Direct equity exposure will be achieved through investment in companies that are shaping our future by causing disruption in today's established marketplace, changing the way we work, shop and interact, or improving our healthcare or environment (though the Fund has no particular social or environmental goals). Intelligent or creative thinking leads to innovation. The YFS Intelligent Wealth Fund aims to invest in companies that harness such innovation to achieve growth by creating new markets or disrupting established ones. Exchange traded funds and CIS that invest in industry sectors where innovation is driving major transformation will also be held by the YFS Intelligent Wealth Fund. Once a sector no longer evidences innovative and disruptive characteristics it will be removed as an investment theme and the exchange traded funds or CIS that operate in that sector will be sold. There is no intended geographical focus, though, as it is home to numerous innovative and disruptive companies, US stocks held either directly or through collective investment arrangements may feature heavily in the portfolio. Similarly, innovative companies are often small with highly motivated, involved and committed management, so smaller companies held either directly or through collective investment arrangements may also feature to an extent greater than in other funds. Innovative and disruptive companies will comprise the predominant element of the portfolio.

The Fund may invest in CIS which have different investment strategies or restrictions than the Fund, including the ability to invest in derivatives for investment purposes and to gain exposure to assets which are not expressly listed above. Investment in CIS will usually be limited to those which invest primarily in the assets listed above and without exception, CIS will only be held in so far as the rules permit the Fund to gain exposure to the assets held by those CIS. The CIS in which the Fund will invest may include schemes which are managed or operated by the ACD or an associate of the ACD.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

Dealing

Shares in the Fund may be bought or sold before 10am on any day which is a business day in the UK.

Income

Income of the Class will be paid out as a dividend on a biannual basis.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Bond Risk: Bonds are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital. The value of a bond will fall in the event of the default or reduced credit rating of the issuer.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	1.04%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 October 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

YFS Intelligent Wealth Fund was launched on 16 April 2018, and the Class launched on 16 April 2018.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.

No performance is shown after 2022 as the Class is dormant following a full redemption made 23rd August 2023.

Practical information

Legal Structure

This key investor information document describes a fund within the YFS Intelligent Wealth Investment Funds ICVC. The Prospectus and periodic reports are prepared for the entire entity. The assets and liabilities of the Fund are segregated from the other sub-funds and only the profit or loss of the Fund impacts your investment.
