

Non-UCITS Retail Scheme Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The Keel Balanced Fund (the "Fund")

(Sub-Fund of The Journey Investment Funds Umbrella)

Share Class: Net Income Shares (the "Class")

ISIN Code: GB00BKBM8X36 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to maximise the total return to shareholders, by preserving and growing the real value of investors' capital and income, placing an equal emphasis on the generation of income and on capital growth, over a period of 5 years. Real value is defined as a rate in excess of the United Kingdom Consumer Prices Index All Items ("CPI") (net of fees). Shareholders should note that there is no guarantee that the Fund's objective will be achieved over this or any other time period and that capital is at risk.

Investment Policy

The Fund's investment policy is to invest at least 50% of the assets either directly or indirectly in global equities. The remaining portion of the Fund's assets will be invested in corporate or government debt securities (directly or indirectly), units and/or shares in collective investment schemes ("CIS") (regulated or unregulated), immovable property (commercial property), warrants, money market instruments, cash, near cash and deposits.

The Fund may invest in CIS which are managed by the ACD, a Portfolio Manager or their associates. Investment in collective investment schemes will generally be directed toward funds which invest primarily in equities and debt securities, however the Fund may invest in collective investment schemes which have different investment strategies or restrictions to the Fund, including the ability to invest in derivatives for investment purposes or gain exposure to assets which are not expressly included in this policy, for example commodities.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark, however it has a performance target benchmark of the United Kingdom Consumer Prices Index All Items (the "Benchmark").

Dealing

Shares in the Fund may be bought or sold before 10am on any Wednesday, or if this is not a business day, then the next business day.

Income

Income of the Class will be paid out as a dividend on an annual basis.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.93%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 July 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

The Keel Balanced Fund was launched on 28 November 2019, and the Class launched on 03 December 2019.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
