

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

The YFS Collidr Multi-Asset Fund (the “Fund”)

(Sub-Fund of The YFS Collidr Multi-Asset Fund)

Share Class: Institutional Income Shares (the “Class”)

ISIN Code: GB00BNNH2Q89 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to provide capital appreciation over the medium to long term (7 years plus) by investing in a diversified portfolio of assets.

Investment Policy

To achieve the investment objective, the Fund typically invests in a mix of assets including equities, bonds and currencies from anywhere in the world. The Fund may invest in these assets directly or indirectly. The fund aims to gain exposure to fixed income assets in a range of 0–60%, and in equity assets in a range of 0–40%. The remaining portion of the Fund's assets will be invested in money market instruments, cash, near cash and deposits. Indirect investment in securities will be achieved by investing in Collective Investment Schemes (“CIS”), which includes regulated CIS, exchange traded funds, investment trusts, structured products (products which usually offer a fixed-term pre-defined return linked to the performance of a range of assets or indices) or derivatives, or a combination of each as permitted by this policy and the Regulations. The Fund may utilise derivatives for investment purposes and to reduce the risks and costs of managing the fund.

The Fund may invest in CIS which are managed by the ACD, the Portfolio Manager or their associates. Investment in CIS will generally be directed toward funds which invest primarily in equities and debt securities, however the Fund may invest in CIS which have different investment strategies or restrictions to the Fund, including the ability to gain exposure to assets which are not expressly included in this policy.

The Fund is actively managed and has, with the exception of the above noted percentage ranges, no limit to which it can be invested in each sector or asset type, nor is there any particular geographic focus. The Fund may invest in Emerging Markets which are countries that are progressing toward becoming advanced, usually shown by some development in financial markets, the existence of some form of stock exchange and a regulatory body. The Portfolio Manager has full flexibility to adjust the proportion of the property of the Fund depending on their view of market conditions and the assets which it believes are most likely to achieve the Fund's investment objective. From time to time the liquidity of the Fund may be increased substantially if judged to be in the interests of investors.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 7 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

Dealing

Shares in the Fund may be bought or sold before 12pm on any business day.

Income

Income of the Class will be paid out as a dividend on a biannual basis.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Derivatives Risk: The value of a derivative depends primarily on the performance of the underlying asset. A small movement in the value of the underlying asset may cause a large adverse movement in the value of the derivative and therefore the net asset value of the Fund. The other party to the derivative may not meet its obligations. Use of derivatives may create leverage and may result in losses that are greater than the original amount invested.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	5%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	1.22%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 28 February 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

There is insufficient data to provide a useful indication of past performance to this share class' investors.

The YFS Collidr Multi-Asset Fund was launched on 19 April 2010, and the Class is currently unlaunched.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
