

Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

YFS Vanneck Global Managed Fund (the "Fund")

(Sub-Fund of Spectra Investment Funds (UCITS))

Share Class: Income Shares (the "Class")

ISIN Code: GB00BQ0L6Q22 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to provide a return on investment (generated through an increase in the value of the assets held by the Fund and/or income received from those assets) over a 10 year period which exceeds the Bank of England's Base Interest Rate by 3% (net of fees). Although the Fund aims to deliver a total return over the long term, there is no guarantee that this will be achieved over this time period, or any time period. The Fund's capital is at risk.

Investment Policy

The Fund seeks to meet its objective by investing in a diversified portfolio of global equities and bonds (at least 80%), which may be investment grade or subinvestment grade, either directly or indirectly. The Fund will be actively managed and the allocation to each (and indeed other asset classes) will not be fixed. For example, at times, where the Investment Manager considers it prudent (based on market conditions, for example where the Investment Manager considers that equity markets are overvalued or exclusively volatile), a large proportion of the portfolio may take the form of bonds and/or cash (and less in equities) and vice versa. The Fund may also invest in moneymarket instruments (i.e. debt securities with short term maturities), deposits and cash.

The Fund may invest in Collective Investment Schemes ("CIS") which are managed by the AFM, the Investment Manager or their associates. Investment in CIS (mainly passively managed) will generally be directed toward funds which invest primarily in equities or bonds. Indirect investment in equities and bonds will be achieved by investing in regulated CIS, qualifying structured products, exchange traded funds or investment trusts. The Fund will not have any particular geographic, industry or economic sector focus and as such weightings in these may vary as required. The Fund may use derivatives only for currency hedging purposes. It is not intended that the use of derivatives for efficient portfolio management purposes will increase the risk profile of the Fund.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 10 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark, however it has a performance target benchmark of the Bank of England's Base Interest Rate plus 3% (the "Benchmark").

Dealing

Shares in the Fund may be bought or sold before 12pm on any Monday, or if this is not a business day, then the next business day.

Income

Income of the Class will be paid out as a dividend on a biannual basis.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Charges to Capital Account: Currently, 100% of the expenses incurred in the operation of the Fund are charged to capital. This treatment of charges may increase the amount of income available for distribution, but may also constrain capital growth and / or erode capital.

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.00%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.85%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 30 June 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

YFS Vanneck Global Managed Fund was launched on 26 April 2023, and the Class launched on 22 April 2024.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.

Practical information

Legal Structure

This key investor information document describes a fund within the Spectra Investment Funds (UCITS). The Prospectus and periodic reports are prepared for the entire entity. The assets and liabilities of the Fund are segregated from the other sub-funds and only the profit or loss of the Fund impacts your investment. The assets of the Fund cannot be used or claimed upon to settle or offset the liabilities of another sub fund, or the umbrella itself.

You can convert shares of the Fund into shares of the other sub-funds of Spectra Investment Funds (UCITS) as detailed in the prospectus.

Depositary

NatWest Trustee & Depositary Services Limited
