

## Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

# YFS One Newgate Capital and Income Fund (the "Fund")

(Sub-Fund of YFS One Newgate Investment Funds)

Share Class: Income Shares (the "Class")

ISIN Code: GB00BT28WM07 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

## Objectives and investment policy

### Objective

The investment objective of the Fund is to generate capital growth and income, net of fees, over rolling five year periods.

### Investment Policy

The Fund will seek to achieve its investment objective by investing in equities (directly or indirectly). The Fund may also invest (directly or indirectly) in corporate or government debt securities and indirectly in alternative assets (including gold, commodities, renewable energy and infrastructure, real estate and absolute return and event driven strategies and funds). The Fund may invest in warrants, money market instruments, cash, near cash and deposits.

The typical allocation range of the Fund to each of these asset classes is set out below. The Portfolio Manager will allocate to each asset class within the typical allocation range, making tactical adjustments to the Fund's holdings, for example, in order to respond to and manage macroeconomic conditions (such as fiscal, natural, or geopolitical events that broadly affect a regional or national economy). In normal market conditions, the Fund's asset allocation will remain within the typical allocation range.

The allocation to each of these asset classes may however be higher or lower in line with the wider range stated further below when the Portfolio Manager considers this appropriate in order to respond to serious market events (such as the 2008 global financial crisis) or significant market movements (such as following the 2022 "mini-Budget") in order to protect returns or reduce downside risk.

### Asset Class Typical Allocation

- Equities - 60% to 70%
- Corporate or government debt securities - 15% to 25%
- Alternatives - 5% to 15%
- Money market instruments, cash, near cash and deposits - 0% to 10%

### Asset Class Wider Range

- Equities - 55% to 80%
- Corporate or government debt securities - 10% to 40%
- Alternatives - 5% to 15%
- Money market instruments, cash, near cash and deposits - 0% to 20%

Indirect investment in equities, bonds, alternative assets and cash will be achieved by investing in collective investment schemes, exchange traded funds, exchange traded commodities and investment trusts, as permitted by the FCA Rules and including those managed by the ACD, the Portfolio Manager or their associates.

The Fund is actively managed and adopts a flexible investment strategy. The Fund can invest in any sector and in any geographic area, subject to the asset ranges set out in the table above.

Derivatives and forward currency transactions will only be used for the purposes of Efficient Portfolio Management, including hedging. The use of derivatives is expected to be limited.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from [www.yealand.com/policies](http://www.yealand.com/policies).

### Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

### Dealing

Shares in the Fund may be bought or sold before 12pm on every business day.

### Income

The fund aims to distribute available income every three months.

## Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

**Counterparty Risk:** The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

**Currency Risk:** Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

**Default Risk:** The issuers of certain bonds could become unable to make payments on their bonds.

**Liquidity Risk:** During difficult market conditions, some securities may become hard to value or sell at a desired price.

**Management Risk:** Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

## Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.99%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 July 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

## Past performance

Total Return %

There is insufficient data to provide a useful indication of past performance to this share class' investors.

YFS One Newgate Capital and Income Fund was launched on 16 January 2025, and the Class launched on 30 April 2025.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
