YFS Argonaut Flexible Fund (the "Fund")

(Sub-Fund of YFS Argonaut Funds)

Share Class: Class I Accumulation Shares (GBP) (the "Class")

ISIN Code: GB00BTCLCR41 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to provide positive returns (a combination of capital and income) over a 5 year period. Capital invested in the Fund is at risk and there is no guarantee that the investment objective will be met over a 5 year, or any other, period.

Investment Policy

The Fund will seek to achieve its objective by investing in a portfolio of stocks that is, at times, concentrated (meaning, at times, approximately 30-60 stocks). The Fund is not constrained by any allocation limits and therefore may invest up to 100% in such stocks, with no minimum requirement. However, the Fund will typically invest between 50% to 80% of its assets in the shares of companies incorporated in countries in Europe (including the United Kingdom) and the United States (the "US"). The Fund may also invest in companies that are headquartered or quoted outside Europe or the US whose securities are listed or traded on a developed exchange markets.

The Fund will not concentrate on any particular sector but will invest in a broad range of companies whose shares are liquid and marketable and have a capitalisation of at least 500 million.

The Fund may also invest in other shares, fixed interest securities (including mainly US Treasury Bills, but also other government bonds and investment grade corporate bonds), commodities (via indirect investment through exchange traded funds, exchange traded commodities and exchange traded notes) in a broad range of sectors, including for example precious metals, industrial metals, energy and agriculture, units in collective investment schemes, money market instruments, cash and deposits.

In pursuit of its investment objective, all or a substantial proportion of the Fund's assets may consist of cash, near cash, deposits, and/or money market instruments. The Fund may also invest in warrants.

The Fund may also make use of certain financial contracts known as derivatives and forward transactions for the purpose of efficient portfolio management, including the use of hedging. It is not intended that the use of derivatives for efficient portfolio management purposes will be significant or that it will increase the risk profile of the Fund.

Risk and reward profile

Lower Risk — Higher Risk

Potentially lower reward — Potentially higher reward

1	2	3	4	**5**	6	7

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Concentration risk: The Fund has a concentrated portfolio, which means it has greater exposure to a smaller number of assets. Therefore, the performance of a single investment in the Fund has a greater effect on the price of the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Derivatives Risk: The value of a derivative depends primarily on the performance of the underlying asset. A small movement in the value of the underlying asset may cause a large adverse movement in the value of the derivative and therefore the net asset value of the Fund. The other party to the derivative may not meet its obligations. Use of derivatives may create leverage and may result in losses that are greater than the original amount invested.

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.99%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 30 June 2026 and this figure may vary.

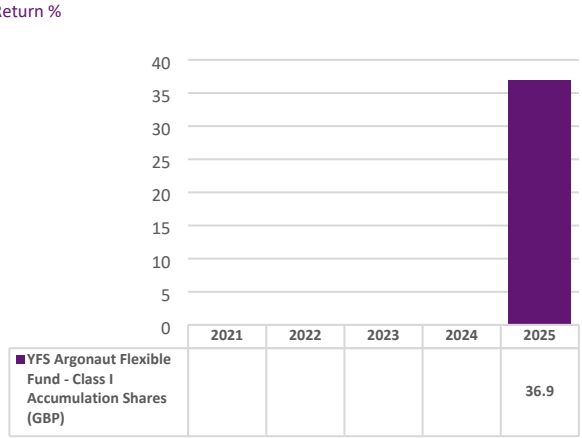

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the "Charges" section in the Fund's Prospectus which is available from the ACD.

Past performance

YFS Argonaut Flexible Fund was launched on 11 October 2024, and the Class launched on 11 October 2024.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.

On 01/07/2025 the Fund's name changed from VT Argonaut Flexible Fund to YFS Argonaut Flexible Fund.
