Key Investor Information

This document provides you with the key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

YFS Charteris Global Macro Fund (the "Fund")

(Sub-Fund of YFS Charteris UK UCITS ICVC)

Share Class: Class A Shares Net Accumulation (the "Class")

ISIN Code: GB00BV8VPH36 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to aim to deliver capital growth over the longer term whilst looking to mitigate downside risks.

Investment Policy

It is expected that the manager will mainly seek exposure to equities across global investment markets along with lesser exposure to ETFs and investment trusts. As a defensive measure, the manager may at any time invest up to 100% of the portfolio in short dated government debt of the world's major economies.

The Fund may also invest, at the ACD's discretion, in transferable securities, structured products, money market instruments, cash and near cash, and deposits. Use may also be made of borrowing, cash holdings, derivatives for hedging and other efficient portfolio management techniques permitted in the COLL.

Investors should note that while the investment objective of the Fund is to achieve long term capital growth there may be situations in which an income return is also achieved.

Investors' attention is drawn to the detailed risk warnings in the Prospectus.

The Fund will be managed in a manner that maintains eligibility for ISAs.

A Glossary of Definitions which provides definitions to some of the technical language used in this document is available from www.yealand.com/policies.

Recommendation

This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Benchmark

The Fund is actively managed and is not managed in reference to a benchmark

Dealing

Shares in the Fund may be bought or sold before 12pm on every business day.

Income

Income from the Class is added to the value of your investment.

Risk and reward profile

Lower Risk ⟷ Higher Risk

Potentially lower reward ⟷ Potentially higher reward

1	2	3	4	5	**6**	7

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Emerging Markets Risk: The Fund may invest in emerging markets, which are markets in countries that are developing. Emerging markets may have more political and economic risks than developed markets, which may result in large and frequent price movements that may cause a loss to the Fund.

Smaller Companies Risk: Investments in smaller companies can involve more risk than investing in larger, more established companies. Shares in smaller companies are often not as easy to sell as shares in larger companies. This can cause difficulty in buying, valuing and selling those shares. Also, reliable information for deciding their value or the risks may not be available.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Bond Risk: Bonds are particularly affected by trends in interest rates and inflation. If interest rates go up, the value of capital may fall, and vice versa. Inflation will also decrease the real value of capital. The value of a bond will fall in the event of the default or reduced credit rating of the issuer.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	None
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	1.84%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 28 August 2026 and this figure may vary.

It excludes:

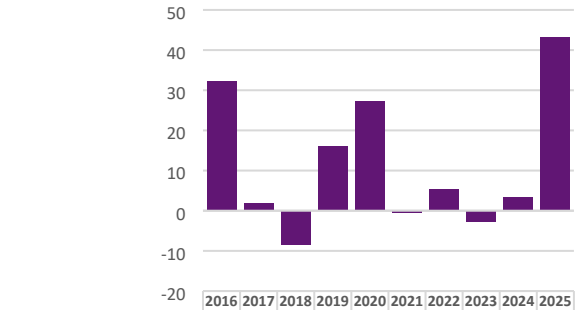

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class. In an agreement between the ACD and the Investment Manager, the Investment Manager has undertaken to pay certain fixed fees outside of the YFS Charteris Global Macro Fund and/or to reduce the level of their fee for a period of at least one year in order to manage the level of ongoing charges taken out of the Fund. The cap for this Class is currently set at 1.84%.

For more information about charges, please see the "Charges" section in the Fund's Prospectus which is available from the ACD.

Past performance

Total Return %

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
YFS Charteris Global Macro Fund - Class A Shares Net Accumulation	32.3	1.9	-8.5	16.1	27.3	-0.6	5.3	-2.7	3.4	43.3

YFS Charteris Global Macro Fund was launched on 02 February 2015, and the Class launched on 02 February 2015.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
