Andromeda Income & Growth Fund (the "Fund")

(Sub-Fund of Rosetta Investment Funds ICVC)

Share Class: Net Income Shares (the "Class")

ISIN Code: GB00BWNH3V33 (Currency: GBP)

Authorised Corporate Director (ACD): Yealand Fund Services Limited

Objectives and investment policy

Objective

The investment objective of the Fund is to generate both income and capital growth, net of fees, over 10 rolling year-periods. There is no guarantee that this will be achieved over the time period and the capital is at risk

Investment Policy

Andromeda Income & Growth Fund will seek to achieve its objective by investing in a diversified global portfolio of equities (35%-85%) and bonds (up to 50%), which may include government and public securities, either directly or indirectly. The neutral equity position is 60% and bond position is 40% and the allocation to these assets may increase or decrease towards the top or bottom of the range in responding and managing macroeconomic conditions (such as e.g. fiscal, natural, or geopolitical event that broadly affects a regional or national economy). The Fund may gain exposure to alternative assets (up to 35% indirectly) which may include Collective Investment Schemes ("CIS") that invest indirectly in real estate or in commodities. The Fund may also invest in warrants, money market instruments, cash, near cash and deposits.

Indirect investment in equities and bonds will be achieved by investing in regulated CIS, exchange traded funds, investment trusts or structured products (products which usually offer a fixed term predefined return linked to the performance of a range of assets or indices) or a combination of each. The Fund may invest in CIS which are managed by the ACD, Investment Manager, or their associates.

The Fund is actively managed and adopts a flexible investment strategy. With the exception of the above noted restrictions, the Fund can be invested in any sector and in any geographic area.

Derivatives and forward currency transactions will only be used for the purposes of efficient portfolio management, including hedging. The use of derivatives is expected to be limited. The use of derivatives is expected to be limited.

Income

Income of the Class will be paid out as a dividend on a biannual basis.

Risk and reward profile

The calculation of the risk and reward indicator is based on 5 years of historical (actual or simulated) information so may not be a reliable indication of the future risk profile of the Fund.

The risk and rewards indicator of the Fund is not guaranteed and may change over time.

The risk and reward profile is classified by the level of historical fluctuation (i.e. volatility) of the Net Asset Values of the Class, and within this classification, categories 1-2 indicate a low level of historical fluctuations, 3-5 a medium level and 6-7 a high level.

A category 1 fund is not a risk-free investment – the risk of losing your money is small, but the chances of making gains is also limited.

The risk category does not take into account the following material risks:

Counterparty Risk: The Fund could lose money if an entity with which it does business becomes unwilling or unable to honour its obligations to the Fund.

Currency Risk: Even with the use of hedging techniques, changes in currency exchange rates could adversely affect the Fund's performance.

Default Risk: The issuers of certain bonds could become unable to make payments on their bonds.

Liquidity Risk: During difficult market conditions, some securities may become hard to value or sell at a desired price.

Charges to Capital Account: Currently, 100% of the expenses incurred in the operation of the Fund are charged to capital. This treatment of charges may increase the amount of income available for distribution, but may also constrain capital growth and / or erode capital.

Management Risk: Investment management techniques that have worked well in normal market conditions could prove ineffective or detrimental in extreme market conditions.

For full details of all the risks that could affect the Fund, please refer to the Prospectus.

Charges for this fund

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry Charge	7.50%
Exit Charge	None
This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).	
Charges taken from the Fund over the year	
Ongoing Charges	0.83%
Charges taken from the Fund under certain specific conditions	
Performance Fee	None

The entry and exit charges shown are maximum figures. In some cases you may pay less – you can find this out from your financial advisor.

The Ongoing charges figure is based on expenses as at 31 October 2025 and this figure may vary.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another collective undertaking.

The ACD receives an annual fee, which is included in the ongoing charges shown here. Ongoing Charges are the same for all investors in the class.

For more information about charges, please see the “Charges” section in the Fund’s Prospectus which is available from the ACD.

Past performance

Total Return %

Andromeda Income & Growth Fund was launched on 01 June 2015, and the Class launched on 01 June 2015.

This chart shows how much the Fund increased or decreased in value as a percentage for 10 full consecutive years or for each year since the launch of the Fund if it has not been in existence for 10 years.

Performance has been calculated in GBP and takes account of ongoing charges.

Past performance is not a guide to future performance; the value of your investment and any income from it may go down as well as up.
